LIVING WORSHIP MINISTRIES over the last Years has established itself as an organization committed towards community welfare, social assistance and providing best possible support. The organization has worked to create a platform and an understanding towards this unassisted and major section of the trust.

Taking impetus from its previous work LIVING WORSHIP MINISTRIES this year articulated and highlighted its work and culture through its work at state level. We organized various different programs to enhance our work area. LIVING WORSHIP MINISTRIES was able to present its experience of working with different groups of people and institutions. After working for few important approvals from Government of India, LIVING WORSHIP MINISTRIES is now up-to-date and also included how its work on sensitization and working with local government and justice system led to greater impact.

LIVING WORSHIP MINISTRIES also understands that many people or communities are never getting the needed rights that they deserve. To ensure opportunities of their survival, it was thus necessary to work with the private sector/Public Sector/ Government etc. LIVING WORSHIP MINISTRIES therefore led consultations with various groups and communities.

All these activities made it possible for LIVING WORSHIP MINISTRIES to highlight a few issues at the state level.
